Vacation mode

Your shop is on vacation

Vacation mode

If you are on vacation or are away and no longer want to receive orders, you can deactivate your shop during a specific period of time by using the "vacation mode".

Your offers will thus not be displayed online and you will have no new orders to manage. However, bear in mind that acceptance of orders, shipments and ongoing complaints, if any, are still to be processed.

To reactivate your offers and once again receive orders, you can exit the "vacation" mode by returning to this column.

Your shop is currently closed

Your vacation mode is activated from 25/05/2023

End date included *
